

The Hague, December '60

My dear Ginny,

Since long I owe you a letter! Dr. Sijthoff gave me your message that you have 2 copies of "Bredge, deins..." and told you were willing to part with one and send it to us. It is very sweet indeed of you to think of us, but... are you sure you have 2 identical books, of the same edition? Because the earlier ones have fewer chapters. "Trio" again wants to produce a new edition, with an addition about the "Deltaplan" by someone else. We do not like this very much and for the moment nothing is done to get it printed elsewhere. Yes, if you really can spare us one copy, we are most grateful. But if you want to have it in America, just keep it. There is no direct hurry.

Dr. Sijthoff told they had stayed with you and I can imagine you as I remember your colour maps. For your husband it may be very different from Holland. You already now have severe winter, also we have some snow today. Africa with its brilliant sunshine seems far away and now I am settled down again at Halpertstr. with a continual coming and going of the children and the little ones, all now having homes of their own. It takes some reorganizing of one's life if one is left alone in rather a short period, and this journey to Africa has awakened a desire for more travels. So this summer I intend to go to Sweden

and I'm glad for some time to be glad  
and her family may be back to Africa,  
near Johannesburg and this time, but  
next year they are home staying with  
his family, but I expect them there  
with Christy too.  
Yesterday we had in our Sunday  
school the film 'The Potter Church is getting  
richer' about the Potter Church in my  
neighbourhood. It was really wonderful. The  
you living far from God? Also  
from Timor told me the best way to  
you. The more I read - up her and the  
is most faithful to our Church. May be  
some time you and your family and some  
to the Hague, for a long visit, I hope  
With my best wishes for the coming  
year and a happy Christmas to you and  
ours.
